**Mail In Registration Form:**

Shelby Rodriguez was 2 years and 2 months when she was diagnosed with pre-B ALL Leukemia June 11, 2007.

She was a normal toddler, happy, smart and silly. She was a joy.

Shelby fought the Leukemia with all her might for 6 months. During her cancer journey she lost the ability to eat, to stand and walk and she lost her vision and was blind. It was heart breaking.

On December 18, 2007 Shelby took flight to God.

Shelby never lost her spirit. She taught us all about love, life and the amazing human spirit.

**The ShelbyR Foundation** is a 501(c)(3) organization which gives monthly financial support to children with cancer and financial grants during the Christmas season to

children living with cancer.
